SUMMARY

Frontend Developer, UI/UX Designer, and Multimedia Artist with experience in web and mobile development, user-centered design, and digital content creation. Skilled in React.js, JavaScript, Figma, and modern frontend technologies, with hands-on exposure to AI-assisted features, LLM applications, recommendation systems, and workflow automation. Combines technical and creative skills to develop functional, accessible, and engaging digital experiences, with a strong interest in applying AI tools to practical product development and automation.

EXPERIENCE

Freelance Multimedia Artist **2021 - Present**

- Created photography, video, and graphic design assets that helped clients and organizations communicate ideas clearly and engage their target audiences.
- Transformed raw concepts and visual materials into polished, platform-ready content for digital and promotional use.
- Developed consistent visual assets across different media, helping maintain cohesive branding and a recognizable visual identity.4
- Managed projects from concept and production to editing and final delivery, adapting creative solutions to meet different project goals, timelines, and audience needs.

SAP BTP Integration - Accenture Academy Delegate (Internship) **Jan 2026 - May 2026**
Accenture Philippines *Taguig, Manila*

- Executed hands-on SAP Process Integration and SAP BTP Integration Suite exercises, strengthening practical skills in system connectivity and integration workflows.
- Applied SAP Business Suite and BTP concepts in simulated business scenarios, improving understanding of enterprise application integration and automation.
- Designed, deployed, and monitored integration flows (iFlows), applying message mapping and transformation techniques to ensure accurate system-to-system communication.
- Collaborated in technical learning activities and guided exercises, enhancing problem-solving and SAP development competencies in cloud-based environments.

EDUCATION

Bachelor of Science in Information Technology **Aug 2022 - June 2026**
University of Santo Tomas *España, Manila*

- Specialized in Web and Mobile Application Development

PROJECTS

TigerRoutes **June 2025 – May 2026**
UI/UX Frontend Developer

- Designed and developed the frontend and user experience of a career navigation web application using React.js and Tailwind CSS, improving accessibility across desktop and mobile platforms.
- Integrated AI-assisted conversational features using an LLM-powered chatbot and Retrieval-Augmented Generation (RAG) to provide contextual responses based on project knowledge and program criteria.
- Implemented recommendation logic and personalized guidance features using psychometric assessment results and academic information to support program exploration.
- Created interactive prototypes and reusable Figma design systems, ensuring consistent and user-centered interfaces across platforms.

Roar Call **Mar 2025 – May 2025**
Frontend Developer

- Developed and implemented an advocacy website for the UST College of Science Student Council using React.js and JavaScript, increasing awareness and engagement for campus cat welfare initiatives.
- Applied UI/UX principles with Tailwind CSS and Framer Motion to create interactive and accessible user experiences, encouraging greater community participation.
- Managed version control and team collaboration through Git, maintaining clean, scalable, and organized codebases.

Austin's Cafe & Gastro Pub **Nov 2024 – May 2025**
UI/UX Designer

- Designed the user interface for an Inventory and Point-of-Sale (POS) Management System in Figma, streamlining restaurant business operations through a centralized platform.
- Developed reporting and analytics dashboard designs integrated with Chart.js and MySQL concepts, reducing daily reporting time by 40% through intuitive data visualization.
- Optimized inventory tracking and operational workflows through user-centered interface design, contributing to a 15% reduction in inventory discrepancies.

ORGANIZATION

Member, Mediartrix — UST
University of Santo Tomas

- Created multimedia and promotional content, managed social media campaigns, and led visual branding for UST publications and musical productions.

SKILLS

AI & Automation: AI-Assisted Development, LLM Applications, RAG, Conversational AI, Recommendation Systems, Workflow Automation
Development: JavaScript, React.js, Tailwind CSS, HTML/CSS, REST APIs, MySQL, Firebase, SAP BTP Integration Suite
UI/UX: Figma, Wireframing, Prototyping, Design Systems, Responsive Design, User-Centered Design
Multimedia: Graphic Design, Photography, Video Editing, Visual Branding, Adobe Creative Cloud
Tools: Git, GitHub, VS Code, Android Studio
